

Class: _____

Name _____

Assignment: **Salmon Life Cycle**

Date _____

Salmon Life Cycle

Instructions

1. Label and illustrate (use color) the stages of a Pacific salmon's life cycle.
2. On the back, create a list of salmon helps (things that benefit salmon or increase their chances of survival) and hazards (natural & manmade threats). There should be at least one help and one hazard for each stage of the salmon's life. Be specific. If you state a salmon is killed, tell where and how. For example: Smolts killed by Caspian terns as young salmon enter estuary.
